

Session held for parents

The Nursery department of **Arvind Gupta DAV Public School, Model Town** organised an interactive session for the new parents. The workshop aimed at acquainting the parents with the school curriculum, teaching methodology, various activities of the school, upcoming events as well as the general policies of the institution. The session helped the parents understand the phonetic sounds, assignments, practice worksheets and ways to access the student's login id so that they could be more supportive and less anxious. The session assured the parents their wards were a part of a family which firmly believes in promoting knowledge through playful means, thereby, ensuring maximum growth and development of students. The relevant circulars and newsletters were then distributed among the parents.
