

TREE-PLANTATION DRIVE

The junior-most students at Arvind Gupta DAV Centenary Public School, North Ex-Model Town, got an opportunity to observe Van Mahotsav, to instil the sense of personal and social responsibility in safeguarding our trees and forests. The celebrations aimed to form a connection between the students and trees through a process of experience, reflection and creation. Under the theme Go Green, several fun-filled activities were organised for the little ones. The tiny tots put on a sash that read 'Green Brigades' and headgear that read 'Go Green' while digging through scraps of ground to plant saplings. Thereafter, the role of tree plantations was explained to them in vivid detail. Later, a colouring com-

petition based on the theme, was organised in the respective classes of pre-primary and pre-school. Principal Mala Sood

awarded the best entries of colouring sheets and urged students to plant a sapling on their birthdays.
