## Chandrayaan-2 event at AGDAV

Excitement filled the air when teachers of AGDAV Centenary Public School, Model Town, informed students about the launch of Chandrayaan-2 from Sriharikota. A video was shown to them to inculcate the feeling of patriotism. The teachers helped them to make a collage of pictures of the launch which they had been asked to bring from their homes. The students took part in the activity with zeal. Principal Mala Sood and supervisory head Sonu Sahni appreciated the efforts made by the students. The teachers told them to salute the scientists and engineers.

Children learnt about the Indian Moon mission in detail
