

- **The exchange activity helped students acquire knowledge about the culture of Sri Lanka**

## **AGDAV TAKES UP SRI LANKA PROJECT**

AGDAV Centenary Public School, Model Town, undertook a project Walk to Palk Strait under which an exhibition was organised. The times have changed and we no longer stay confined within the four walls of our thinking. In an effort to give students international exposure and make them aware of the diverse cultures that are prevalent outside the country. AGDAV took this initiative. Knowledge increases by sharing and not just saving. The exchange activity helped students acquire knowledge about the culture of Sri Lanka. The exhibition included information on cuisines, dance forms and places to visit in Sri Lanka. A beautiful dance was performed by students from different states of India and Sri Lanka. The students acquired knowledge about the diverse cultures of the two countries. The students learnt to organise an event in a systematic way and fulfilled their responsibilities well. Students also learned about the differences in culture and traditions in India and Sri Lanka.
