

Testing students' aptitude

With an aim to hone the skills of children, **Arvind Gupta DAV Public School, Model Town** conducted a Conquest Quiz Contest. The tests were designed by experts to identify the strengths and weaknesses of students. The purpose was to keep children more focussed and motivated to strengthen their skills in different dimensions and perform well in academics. The organisers appreciated the efforts of the school coordinator in-charge **Sonu Sahni** who was selected as the Best Coordinator from among 600 schools. The detailed results and photographs of achievers were published on their website to share the success story of the school and inspire young minds to excel in various spheres of life.
