

Arvind Gupta DAV Centenary Public School

In an endeavour to bring about an understanding of the importance of Dental Health and Hygiene, Arvind Gupta DAV Centenary Public School, Model Town organised a Free Dental Check-Up Camp for the students of primary wing. Doctors examined the students and provided them with a prescription so that parents could know what precautions they must take. Teachers acquainted the little ones about the importance of healthy teeth and told that they should brush their teeth twice a day and take care of their teeth. The day ended with a promise that students would keep their teeth healthy and clean.
